Service Promotions: 10% off Vole and Rodent Service

TICK CONTROL customers with PREPAID service contracts of 5 Months or more are eligible to receive a 10% discount off of their Vole and Rodent contract this year.

Small burrowing rodent species have been linked as the vectors of Lyme disease. Juvenile Ticks first blood meals are often from low lying Lyme infected Rodents. Controlling the population of Rodents on your property will greatly increase the overall effectiveness of our Tick control efforts.

In addition, Vole and Rodent programs help to defend ornamental trees and bushes from damage, as well as customer homes from unwanted Rodent entry.

Tick control, when provided according to our recommendations, together with a year round Vole and Rodent control program will help us to keep your home and family safe from Ticks as well as Rodents this year. At a 10% discount! Please call for more information.

Thank you for choosing East End Pest Management.
